

CS411 Team Assignment 2 - User Stories: US3.4 (Recipient Selection)

Group 20 - Manish Patel, Ji Zhang, Chen Feng, Curtis Mason and Takamitsu Shirono

Calendar Features:

Recipient Selection:

The user will be able to assign a “recipient” for a scheduled event, for which the event will translate to both parties’ Google Calendars. The user can enter their email and/or send an invite to the other user that they can accept in some way.

The unsuccessful case/exception is if the recipient has not signed up or accepted the terms of use for our web application.
